

The Silver Academy
Central PA's Jewish Day School

Give Your Child A Head Start

The Silver Academy's kindergarten program provides young students with the opportunity to reach their full potential through exploration and discovery. Our teachers introduce students to the world around them, encouraging critical thinking, creativity, and collaboration. Our kindergarten instructors provide individualized attention to each student, encouraging growth in writing, reading, science, mathematics, and dual-language acquisition. Your student will have endless opportunity to grow through our values-based education and advanced curriculum at our full-day kindergarten program.
